Our Palm Tree is another selection with a soft, embossed, alternating pattern. While you will find Palm Tree similar in content to the Angel Fish and Sea Shell (both on pages 6 & 7), this tile also has a slightly different color palette. If you are having trouble matching a specific color, you'll probably find it in this group of companion tiles.

TIP Pool/spa tiles are manufactured to conform to established pool construction standards.

Even though a tile manufacturer will use many pieces to create a basic tile design, all pool/spa tiles are manufactured to a modular dimension based on a construction step height of 6 inches.

ANGEL FISH
1 Sheet = 1.2 sq. ft.

A n aquatic flavor is expressed in the soft, embossed pattern of the Angel Fish tile. Although similar in design content to Sea Shell and Palm Tree (above & page 4), a different palette of colors gives a totally distinctive expression to your pool and spa.
If you are fond of warm seas and sandy beaches, you’ll love the **Sea Shell** tile with its soft, embossed pattern on alternating tiles. The colors range from the soft pastels of far away islands to the crisp blues of tropical waters.

**TIP** The shade of tiles may vary with in any given color.

*Be sure to visually check the actual shade of the tile before installation.*

The tiles pictured in this brochure are as accurate a reproduction of actual tile colors as is possible. But all tiles are subject to variations in color within every lot. Why?

Tiles are “fired” in relatively small numbers. The slightest change in firing temperature – which is normal in the manufacturing process – will produce an equivalent variation in color that adds to the sparkling beauty of the tile.

**MIX & MATCH**

The Discovery Accent tile colors you see above are color coordinated with the Discovery Field and Discovery tiles (both on pages 12 & 13), and the 2"x2" CMX tiles (bottom of pages 24 & 25) for one reason – they have been designed for what is known in the pool and spa trade as “MIX AND MATCH”.

"Mixing and matching" allows for creating any number of striking variations in your tile design, all the while maintaining a harmonious color scheme. There’s no limit to your imagination and personal expression with this select series of fully coordinated "mix & match" tiles.
and modern look as its companion tile, Discovery, on the next two pages. (Be sure and read about "MIX & MATCH" below).
Before your tiles are installed, please read the tip about color variations on page 7.

We have expanded our Discovery Field to include more colors than ever. The selection will make it easy for you to match your pool decor. (Be sure and read the "MIX & MATCH" note at the bottom of page 10.)
When installing tile on surfaces meeting at right angles (such as spillways, decorative structures, counter tops, etc.), you want corners with a rounded, finished look. The sketches illustrate two types of tiles made for just this purpose.

Here's a design that is getting a lot of attention, the Discovery. This beautiful tile features a richly shaded star-burst pattern in four expressive colors. The fresh, glossy appearance of this tile gives your pool or spa a modern and sophisticated look.

**CERRA VILLA**

1 Sheet = 1.15 sq. ft.
**TIP** Kitchen, bathroom and floor tiles are a world apart from specially manufactured tiles for pools/spas.

Not all tiles are intended for use in pools or spas. Tiles are designed and manufactured differently depending on how and where they are used.

Pool/spa tiles not only must tolerate changing outdoor temperatures, but must withstand acid-based pool chemicals 24 hours a day.

The Akron Field comes in a large variety of both traditional and designer colors. This handsome tile creates a ‘field’ of color for a sophisticated, subtle look.

**TIP** Most people don’t know it, but all pools and spas can be retiled. It’s not uncommon to have it done.

Why retile? To color coordinate tile as part of an overall house redesign effort. Or perhaps a house you purchased has a pool/spa tile that is not to your taste.

Retiling is usually a routine procedure. So when a new tile series or pattern is introduced that you like even more, you can make a change.

ACCESSORIES

Long lasting, polished stainless steel assist rails come in two configurations: 1) the Grab Rail (upper picture) for assistance when using inset steps on a sidewall, and 2) the Hand Rail (lower picture) when using regular steps.

Side-wall Inset Steps (not shown) are grooved to minimize slippage. These pre-formed steps are available in white and aqua blue.

You can choose from a variety of standard Specialty Tiles which serve as sign and depth markers. The sign and depth marker tiles can be ordered with a sanded surface to minimize slippage on decks. Personalized ‘signature’ tiles are also available by special order.

You have more choices of earth-tone colors in brick products than ever before. Shown is a sampling of the range in colors, shapes and sizes we stock. All brick products, Bullnose, Safety Grip, Split and Common Bricks are made of quality clay and fired at high temperatures for durability and lasting beauty.
